

When Traditional Treatment Isn't Enough

Many individuals continue to experience persistent depression, anxiety, or mood instability despite medication trials and outpatient therapy.

MetaVida was developed to provide a more comprehensive, biologically informed approach — integrating advanced psychiatric interventions with structured clinical oversight.

Evidence-Based

Clinically Integrated

Outcomes-Driven

Clinical Referrals & Program Inquiries

MetaVida is designed for individuals experiencing:

- Treatment-resistant depression
- Chronic or severe anxiety
- Mood disorders requiring advanced intervention
- Incomplete response to traditional outpatient care

General Program Page

ADVANCING MENTAL HEALTH TREATMENT THROUGH NEUROSCIENCE AND PSYCHIATRY

For individuals who have not achieved optimal results with traditional care.

FuturesRecoveryHealthcare.com/MetaVida

A clinical service line of Futures RecoveryHealthcare.

An Integrated Clinical Model

MetaVida combines advanced neuropsychiatric interventions with individualized treatment planning and therapeutic integration.

Care is delivered within a medically supervised behavioral health setting to ensure safety, coordination, and continuity.

Science-Backed Modalities

Transcranial Magnetic Stimulation (TMS)

Non-invasive, FDA-approved treatment that stimulates areas of the brain responsible for mood regulation and executive functioning.

Supports neuroplasticity and long-term symptom improvement.

Ketamine Therapy

Rapid-acting intervention that promotes synaptic growth and neural flexibility.

Delivered with structured clinical support and therapeutic integration.

The MetaVida Difference

A Framework Designed for Measurable Progress

- Comprehensive psychiatric & medical assessment
- Personalized treatment planning
- Team-based clinical oversight
- Ongoing response monitoring
- Integrated wellness & nervous system regulation

Comprehensive Enhancement Options

Brain Health Enhancement

- qEEG Brain Imaging
- Cognitive Assessment & Training

Wellness Enhancement
